**Western Specialty Contractors Promotes Ed Carter to  
Branch Manager of its Dallas/North Texas Branch**

(St. Louis, MO, May 23, 2018) – Western Specialty Contractors has promoted Ed Carter of Dallas, TX to Branch Manager of its Dallas/North Texas branch office. Carter was previously a Sales/Project Manager at Western's Austin, TX branch.

Carter will be responsible for running the branch office, which will include marketing, sales, estimating, oversight of operations and administrative functions, safety of all branch employees, and productivity of office staff and field crews. Additionally, Carter will be responsible for ensuring the branch's profitability by forecasting and managing the budget, identifying market trends, ensuring quality control and building/maintaining customer relationships.

Serving the Dallas area since 1959, Western's Dallas/North Texas branch offers the following commercial specialty services:

- Concrete restoration
- Structural repair
- Post-tensioned cable repair
- Parking deck restoration
- EIFS/stucco restoration/recoating
- Epoxy and chemical grout injection
- Expansion joint systems
- Exterior wall coatings

- Masonry/stone restoration
- Building cleaning

Carter has been with Western Specialty Contractors since 2015 and has a total of 20 years of experience in specialty construction, including manufacturing, contracting, application of polyurethane coatings and waterproofing.

He has attended Centenary College of Louisiana, Blinn College in Bryan, TX and Texas A&M University in College Station, TX. He is a member of International Concrete Repair Institute (ICRI) and Austin Association of Facility and Maintenance Engineers (AAFAME).

### **About Western Specialty Contractors**

Family-owned and operated for more than 100 years, Western Specialty Contractors is the nation's largest specialty contractor in masonry and concrete restoration, waterproofing and specialty roofing. Western offers a nationwide network of expertise that building owners, engineers, architects and property managers can count on to develop cost-effective, corrective measures that can add years of useful life to a variety of structures including: industrial, commercial, healthcare, historic, educational and government buildings, parking structures and sports stadiums. Western is headquartered in St. Louis, MO with over 30 branch offices nationwide and employs more than 1,200 salaried and hourly professionals who offer the best, time-tested techniques and innovative technology.
